## COLLECTION

PORCELANOSA

## PORCELANOSA Grupo's new 'Home Collection' catalogue has been revamped in keeping with the latest trends.

It offers multiple different design ideas to dress up the home in top-quality, stylish, functional manner. With an almost endless choice of products and models, conceived to meet varying expectations, tastes and needs, it ranges from ceramic tile, stone and wood coverings for walls and floors, furniture and accessories for the kitchen, and bathroom equipment like sanitaryware or bathtubs to wardrobes and walk-in closets, to name just a few.

Visit your nearest PORCELANOSA showroom, where you can count on the professional guidance of a highly skilled team of staff who will introduce you to endless home design possibilities.

## PORCELANOSA SHOWROOMS

Over 400 showrooms located in almost every corner of the world and a constantly growing distribution network in cities as emblematic as New York, London, Paris and Milan guarantee easy access to Porcelanosa products on all five continents.

At PORCELANOSA Grupo's showrooms, consumers can see for themselves the results of the ongoing innovations in technology and design for which the company is famous.

## SPECIALIST GUIDANCE

Visit your PORCELANOSA showroom and let our team of experts resolve any home refurbishment or home design queries that you may have. They will guide you in your decisions, taking into account your tastes and requirements.

Find your nearest PORCELANOSA showroom using the [www.porcelanosa.com](http://www.porcelanosa.com) online store locator.

## PORCELANOSA CUSTOMER CARE

Our Customer Care team will deal with all your enquiries on our telephone helpline: +0034 901 100 201 (for UK calls please dial 08702 240245).

If you prefer to write to us with your queries or comments, you can contact the PORCELANOSA team by e-mail at [grupo@porcelanosa.com](mailto:grupo@porcelanosa.com)

## WWW.PORCELANOSA.COM

The portal you have always dreamt of, with access to an extensive range of products conceived to lend personality, style, functionality and avant-garde appeal to homes, plus tools designed to guide you in your decisions, and a wide range of information on up-to-the-minute trends. An intuitive, easy-to-use website, it can also be used to contact specialist professionals who can help you resolve all your enquiries.

## NEWSLETTER

To help you keep up to date with the latest innovations in home design developed by PORCELANOSA Grupo's design and research teams, together with the company's latest technological and aesthetic developments, we offer you the possibility of subscribing to our monthly newsletter on [www.porcelanosa.com](http://www.porcelanosa.com).

## MOBILE APPLICATIONS

The future is here. PORCELANOSA Grupo has created a package of mobile phone apps that will offer professionals from the worlds of architecture and interior design and all users interested in the company's products and materials an insight into its latest products. Likewise, they can assist in the creation of settings, from virtual visualizations through to the creation of real ones, using a telephone, iPad or tablet of any kind. Download them from the apps section of [www.porcelanosa.com](http://www.porcelanosa.com) or from iTunes.

## BLOG

The latest products, groundbreaking new additions, trends, projects, innovative new developments, technological materials and new interpretations of nature's own products. You can find all these things and more on PORCELANOSA's blog at [www.porcelanosa.com](http://www.porcelanosa.com): a section with up-to-date news of the group's stream of products and ideas and a good source of inspiration for design projects or for the home.

## PRODUCT SEARCH ENGINE

Thanks to our simple yet highly efficient product search engine, you can easily consult PORCELANOSA Grupo's extensive range of products and services, including technical characteristics, installation manuals, CAD files, precise images and suggested settings, in order to find what you need to bring your design project to life. Available at [www.porcelanosa.com](http://www.porcelanosa.com).

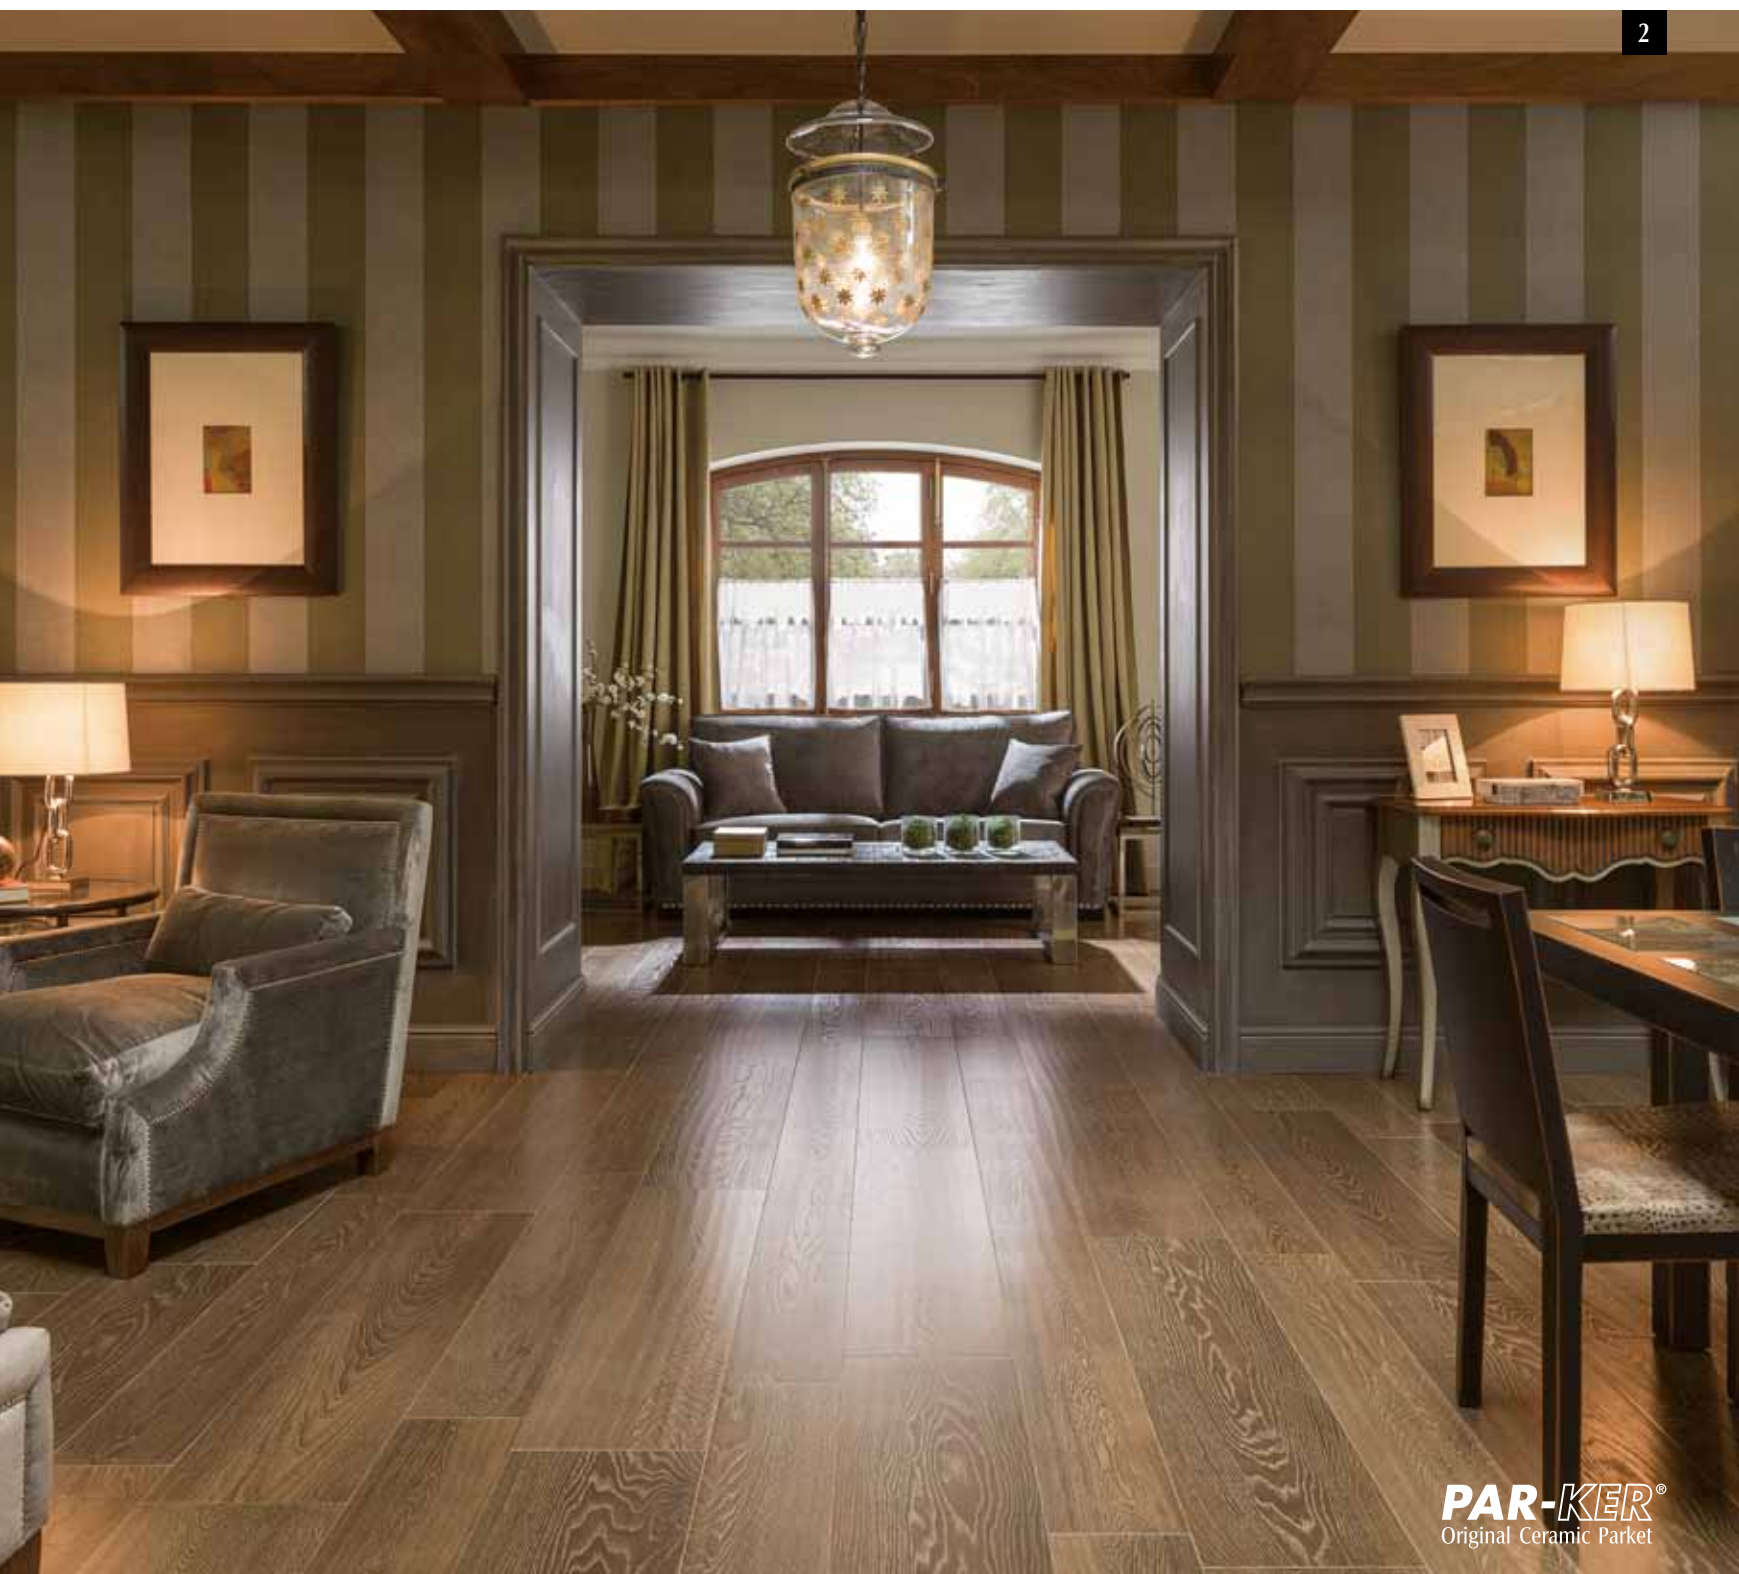

## LIVING ROOMS

Resistant eye-catching ceramic parquet, floor tiles that emulate cement flooring, or tiles inspired by traditional encaustic cement ones for lovers of a vintage handcrafted look. Strikingly beautiful stone flooring or the warmth of wood, bringing the very essence of nature into the home. Use them individually or in combination with wall coverings featuring relief textures or vinyl finishes. Perfect for bringing warmth and inimitable beauty to living rooms.

## DECORATIVE PROFILE

Butech's decorative profiles are the small details that make a difference in bathroom design.

Butech offers a wide range of profiles that are adapted to a wide variety of uses: decorative metallic lines, separations between different materials, corner protections, or upper trims for wall coverings. Thus, Butech offers its customers solutions for all types of bathrooms and kitchens, from functional design chromed profiles to 24 k gold profiles for the most exclusive environments.

YOVE

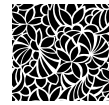

The new YOVE bath and shower screen collection with the simplicity of its lines captures a minimalist and contemporary spirit, without compromising on rugged performance. In various formats and sizes to satisfy market demand. The screen is available in two heights: 1950mm for showers and 1450mm for installing over baths. The entire range features space-saving sliding doors, for user convenience. The doors have 2 bearings on the upper section, leaving the bottom of the screen clear

The minimalist profile together with detachable lower guide makes the YOVE range extremely functional and versatile

 S+LINE 9  
 S+LINE reflects new trends in design. Aluminium's conventional straight edges have been replaced with gentler, more sinuous shapes.

Its compact organic profile, incorporating one of the most advanced roller systems on the market in this small space.

As with the natural world, where superior solutions to environmental problems often go unnoticed, so the S+LINE shower enclosure's gentle minimalist design conceals innovative solutions, like its extra-smooth rails or the SoftClose opening and closing mechanism.

## LAND SHOWER TRAYS

Manufactured with high performance Technical Gel Coat. Land reproduces the texture of slate with a high gloss finish. Land Stone offers a texture similar to granite with a matt finish.

Land shower trays have been designed to respond to:

State-of-the-art design: research into customer requirements and aesthetic trends stimulate new ideas to keep us at the forefront of design.

Increased performance: new features such as Land Stone Class 3 non-slip surface and pleasant feel were considered when creating this range.

## PORCELANOSA CERAMIC SHOWER TRAYS

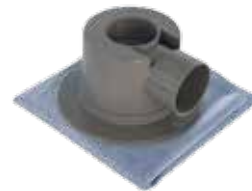

Butech offers complete solutions for projecting shower trays integrated with the floor tiles.

Its wide range of waterproofing materials compatible with the ceramic placement, such as compact sump systems and heat sealed waterproof sheet, ensure the tightness of the area, eliminating the risk of leakage.

For the final finishing, Butech has an extensive collection of decorative grids among decorative grids with metallic or glossy finishes and can even achieve a visual continuity with the same ceramic pavement inserts.

# HIGH-PERFORMANCE SOLUTIONS

BUTECH is PORCELANOSA Grupo's specialist in high-performance ceramic tile-laying solutions, ensuring tile applications to suit the most complex technical or architectural needs. Thanks to its rigorous quality standards, it offers unbeatable technical assistance and guaranteed performance.

Ventilated Facade System with Solid Surface **butech**

## TILED FACADES

All STON-KER, URBATEK and even PAR-KER tile models can be used on facades. Thanks to their technical characteristics and wide variety of designs, they are ideal as outdoor cladding on buildings.

Through its Technical Project Department, Butech offers clients of PORCELANOSA Grupo assistance in the design and assembly of facades.

**Salient products:**  
 VENTILATED FACADES  
 BONDED FACADES  
 KRION® VENTILATED FACADES

## KRION® FACADES

The KRION® VENTILATED FACADE system combines the excellent performance of Solid Surface with the know-how developed by Butech in the design and execution of those kind of facades. All accredited by the most demanding international agencies and the prestige of the brand PORCELANOSA.

This system adapts perfectly to the cladding and allows the designer to perform impossible designs with other materials: curved forms, backlight, decoration by engraving or facade designs in different planes. The technical characteristics of the system as well as its flexibility allows to create the most innovative designs.

## RAISED ACCESS FLOORING

The raised access flooring (RAF) is a system that was born from the need to hide the large number of installations such as telephone and electricity wiring, piping, air conditioning, etc... that are located in work areas, technical rooms, etc...

These installations are hidden under the system, as a "technical plenum" has been created with immediate and easy accessibility. It also lets us carry all the installations neatly.

## RAISED ACCESS FLOORING FOR EXTERIORS

The raised access floor (RAF) system for terraces has been specially created to provide an aesthetic solution for terraces containing unsightly drainage slopes. By building a completely flat floor over the existing terrace floor, these slopes are conveniently hidden underneath.

Height deviations are offset with height-adjustable plots and any accumulated water is drained through open joints on the newly paved surface and then channelled down the terrace's waterproofed slopes to the drain.

## FULL SAFETY AND ASSURANCE

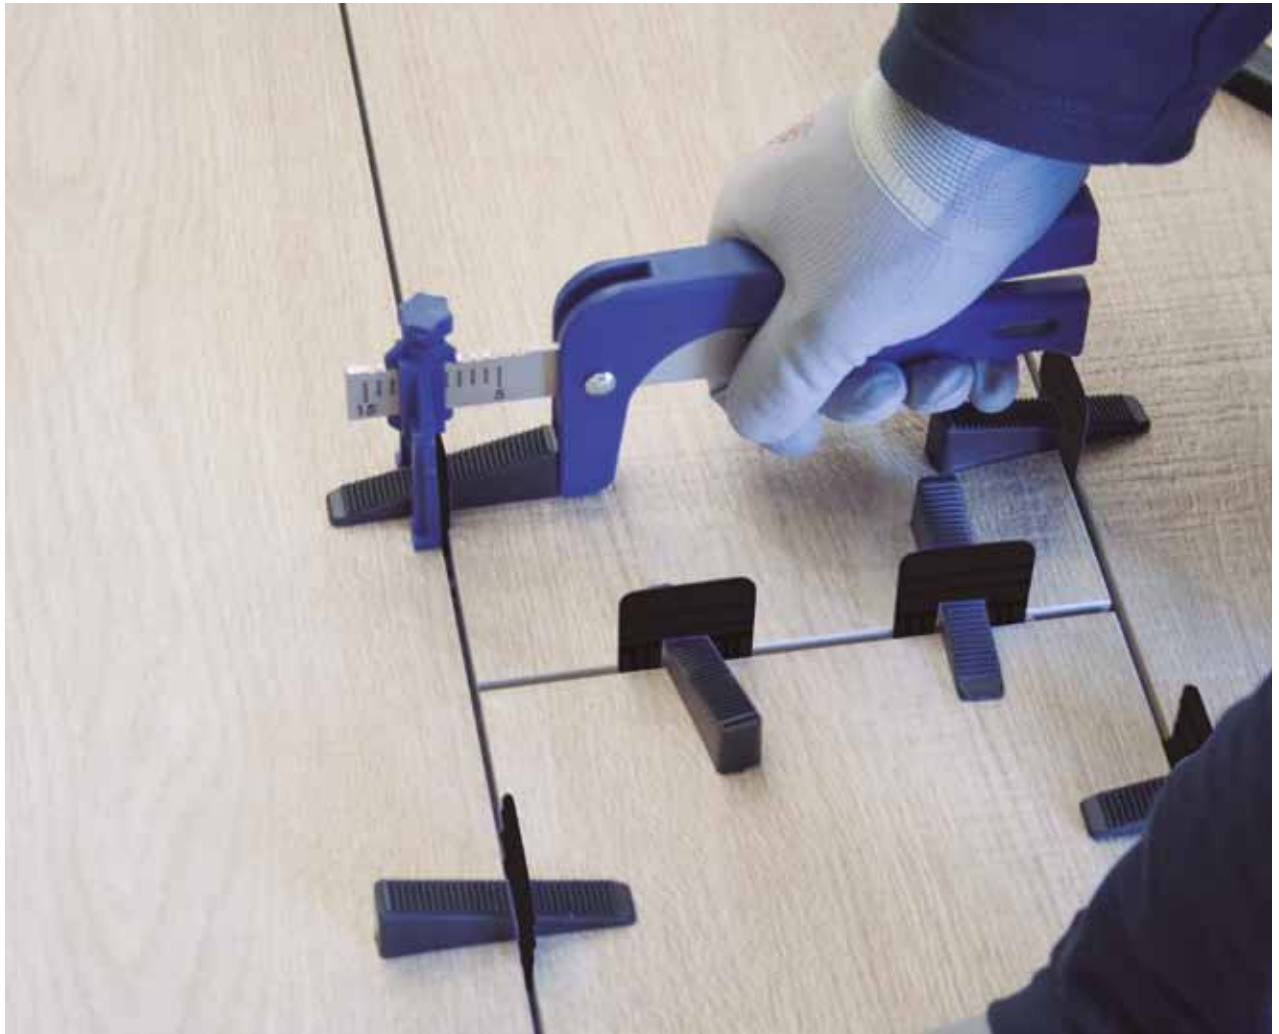

### TILE-LAYING MATERIALS

A specific adhesive is required for each tile model. PORCELANOSA Grupo has a close awareness of its product's requirements, and it develops technical solutions to facilitate the installation of different tile models and to ensure safe, healthy buildings.

PORCELANOSA Group just recommends Butech setting materials. Ask our technical team for choosing the correct adhesive.

**Salient products:**

- fr-one n
- one-flex n
- levelling tile spacers and wedges

## PERFECT FINISHES

### GROUTING MATERIALS

The colour, shade and texture of tile joints are important aspects to be taken into account in the design of tiled surfaces. Just as you select the tile model of your choice, you should also choose the grout that best fits in with it.

The quality of the grouting material is also crucial so as to prevent changes in colour, loose grouting or even water penetrating the joints. PORCELANOSA Grupo's tile catalogues specify the recommended shade of grouting material to use with each tile model.

**Salient products:**

- colorstuk 0-4 n
- colorstuk rapid n
- epotech crystal

## WATERPROOFING SYSTEMS

When water is present, there is always risk of leaks. This contingency must be taken into account in the design and creation of all bathrooms. Damp, drips and water leaks can be avoided by laying a waterproofing membrane under tile coverings as a moisture barrier.

Waterproofing membranes, waterproof mortar, drains and decorative drain grills are essential in the creation of swimming pools, terraces and bathrooms.

**Salient products:**  
KIT IMPERBAND STANDARD  
150x225 cm  
Horizontal and vertical outlets

KIT IMPERBAND REHABILITACIÓN  
150x225 cm  
Horizontal outlet

Check the available grids on page T19

## TILED SHOWERS

A growing number of bathrooms feature showers with a tiled or mosaic tray instead of a conventional fibreglass one. Butech offers a wide range of waterproofed prefabricated panels ready for tiling over with mosaics or tiles, with the right slope for water to drain away.

This kind of tray is specially recommended for bathroom refurbishment projects.

**Salient products:**  
Plato de ducha Concept XPS rejilla central 1.000x1.000x40 mm  
Plato de ducha Concept XPS rejilla lateral 1.200x900x30 mm
