CATAglaze[®]+
Silver Titanium

Protezione antibatterica al 99,99%
99.99% antibacterial protection

IT Connotata da una accentuata orizzontalità, Horizon è una collezione che si compone di due linee.

La prima combina tre lavabi ovali da 70, 60 e 50 cm ed un lavabo tondo da 50 cm a quattro piani ceramici da 150, 125, 100 e 75 cm. Il piano da 150, in due versioni, prevede configurazioni con lavabo singolo o doppio. Negli altri piani, il lavabo singolo può essere posizionato a sinistra, al centro e a destra. La seconda linea propone tre lavabi nelle dimensioni di 125, 100 e 75 cm con catini ovali integrati nel piano. Le nuance disponibili e la possibilità di abbinamento anche a mobili e strutture dedicate rendono il sistema adatto ad ogni tipo di bagno.

EN Characterized by an extremely flat surface, Horizon System is made up of two types of product. The first one includes three oval washbasins (70, 60 and 50 cm sized), one round washbasins and four ceramic tops (150, 125, 100 and 75 cm sized). Washbasins can be installed in the middle, on the right or on the left of the other ceramic tops, but on 150 cm one - available in two versions - it is possible to install two washbasins. The second group includes 3 washbasins (125, 100 and 75 cm sized) with oval bowls integrated in the surface area. The available colours and the range of furniture, basin units and support frames, make this system suitable for every kind of bathroom.

Il centro ricerche Catalano, in risposta alle esigenze di mercato orientate sempre più alla personalizzazione e alla necessità di differenziazione, ha sviluppato internamente nuovi smalti colorati capaci di garantire nel tempo un'assoluta resistenza alle abrasioni, agli acidi e agli sbalzi termici.

Catalano Research Centre, in order to meet the market need for customization and differentiation, has developed in-house new colored glazes able to guarantee a high resistance over time to abrasions, acids and thermal shock.

Resistenza agli agenti chimici
Resistance to chemicals

Resistenza agli sbalzi termici

Le finiture Gold&Silver

Gold&Silver finishes

Oro-bianco
Gold-white

Argento-bianco
Silver-white

La sperimentazione di Catalano sul tema delle finiture di pregio ha reso possibile la messa a punto di un esclusivo processo produttivo che consente l'applicazione sui sanitari di una "pelle" di oro 18k e di argento puro. Ne derivano finiture eccellenti, frutto di uno specifico processo di vetrificazione che consente di ottenere un grado di resistenza alle abrasioni "unscratchable", ai detersivi e agli sbalzi termici nettamente superiore rispetto agli smalti tradizionali.

Catalano experimentation on precious finishes has lead to the development of an exclusive production process for applying a "skin" of 18k gold and pure silver on sanitaryware items. These precious finishes are the result of a special vitrification process which allows to get a much higher resistance to abrasions, detergents and to thermal shock than standard glazes.

FINITURE DISPONIBILI
AVAILABLE FINISHES

- Bianco lucido | Glossy white
- Bianco satinato | Satin white
- Cemento satinato | Satin cement
- Nero satinato | Satin black
- Verde satinato | Satin green
- Azzurro satinato | Satin blue
- Grigio satinato | Satin grey
- Marrone satinato | Satin brown
- Oro + Bianco | Gold + White
- Argento + Bianco | Silver + White
- Oro + Nero | Gold + Black

Nota: per l'identificazione dei codici dei lavabi abbinabili presenti in queste pagine, consultare il listino prezzi, nelle rispettive collezioni.

Note: to identify the product code of the matching washbasins shown on these pages, please refer to the price list of the related collections.

Rispettare l'uomo, il lavoro e l'ambiente

*Follow
the green
path.*

La coerenza, l'impegno e la sensibilità con cui Catalano affronta la questione dell'impatto ambientale dimostrano che il "Think Green" è una strategia responsabile ma anche una politica culturale consolidata e fortemente condivisa. L'azienda ha infatti messo in atto politiche orientate alla massima riduzione del consumo d'acqua, alla gestione sistemica delle risorse, investendo in energie rinnovabili - il 25% dell'intero fabbisogno energetico dell'azienda deriva dal parco fotovoltaico - in nuove tecnologie e in automazione non tralasciando l'ottimizzazione della logistica.

Respect
for people,
work and
environment.

*Follow
the green
path.*

Catalano's coherence, commitment and understanding in dealing with the issue of environmental impact, prove that "Think Green" is a responsible strategy but also a consolidated and strongly shared cultural policy. The Company has implemented several "green" guidelines aimed to save water, to get a general management of resources and to invest in renewable energy, new technologies, automation and also in logistics optimization. Today, 25% of the company's total energy need comes from its solar plant system.

Catalano, guarda al futuro

1

Think Green

Catalano crede fortemente che il **"Think Green"** sia la strada da seguire per il futuro dell'industria ceramica: ridurre drasticamente l'impatto sull'ambiente ed applicare il LCD Life Cycle Design.

Catalano strongly believes that **"Think Green"** is the road that needs to be followed for the future of the ceramic industry: drastically reducing the impact on the environment and the planned application of the principles of LCD (Life Cycle Design).

2

Le nostre certificazioni Our certifications

3

Un team fortemente coeso e motivato A highly cohesive and motivated team

Catalano opera con un team di specialisti che quotidianamente monitora e valuta gli aspetti ambientali aziendali al fine di garantire il rispetto delle normative e dell'ambiente.

Catalano manages all environmental aspects with a team of people who monitor and evaluate daily the company's environmental situation in order to ensure compliance with laws, authorizations and respect of the surrounding environment.

4

Processi e ricerche Procedures and researches

L'implementazione di impianti robotizzati hanno consentito un sensibile miglioramento qualitativo dei prodotti in aggiunta alla riduzione dei consumi energetici e dell'impatto ambientale.

The implementation of robotic machineries has allowed a significant qualitative production improvements and also reduced energy consumption and the impact on the environment.

Catalano, looks to the future

5

Esclusivo sistema di recupero del calore Exclusive heat recovery system

È stato realizzato un esclusivo sistema di recupero del calore, che ha migliorato le performance ambientali portando ad una diminuzione dei consumi di gas e di energia nelle fasi di cottura ed essiccazione.

An original and exclusive heat recycling system was designed to further improve the protection of the environment, which led to a considerable reduction in energy during firing and drying phases.

6

Nuovi impianti fotovoltaici New photovoltaic systems

La messa a regime degli impianti fotovoltaici, ha permesso un fondamentale risparmio di energia quantificabile in circa 1 milione di kWatt l'anno.

The implementation of our solar power plant has allowed for fundamental energy savings of about 1 million kW a year.

7

Riciclo totale degli scarti ceramici Total recycling of ceramic waste

È stato recentemente realizzato un nuovo impianto, ad alta efficienza energetica, capace di riciclare al 100% gli scarti di lavorazione, già di per sé derivati dalla lavorazione di materie prime naturali.

The new innovative recycling plant, which is highly energy-efficient, is able to recycle 100% of the processing waste of industrial procedures derived from the processing of natural raw materials.

8

Impianto di depurazione Water purification plant

L'ingegnerizzazione dei processi ha reso più efficienti i sistemi di trattamento delle acque ottenendo una notevole riduzione dell'utilizzo di prodotti per la depurazione.

The water treatment plants have been made more efficient through continuous research applied to process engineering, achieving a significant reduction in the use of purification products.

Catalano, la scelta migliore

1

Made in Italy

Tutti i prodotti della Catalano sono pensati, progettati e prodotti al 100% in Italia, nel nostro unico stabilimento produttivo vicino Roma. La scritta "Made in Italy" viene impressa a fuoco in modo inalterabile per garantire l'assoluta originalità dei prodotti.

All Catalano products are 100% Made in Italy, because they are all conceived, designed and manufactured in our sole global production site near Rome. "Made in Italy" logo is hot-stamped in unalterable way to guarantee the origin of our products.

2

Know How

La migliore qualità della ceramica sanitaria, ottenuta grazie a macchinari di ultimissima generazione e all'insostituibile competenza tecnica del nostro personale.

Best quality ceramic sanitary ware, achieved thanks to the most advanced technologies in production process and to the exceptional skills of our technicians.

3

Industria 4.0 | Industry 4.0

Un cambio di paradigma nella produzione, inteso come smart manufacturing, per la digitalizzazione e ottimizzazione dei processi produttivi.

A change of paradigm in production, intended as Smart Manufacturing, for digitization and optimization of production processes.

4

Sostenibilità | Sustainability

Fondamento di tutte le scelte produttive e di progettazione in Azienda, è confermata dalle importanti certificazioni ottenute.

It is the cornerstone for all design choices and processes in the company, and it is confirmed by the most important certifications obtained.

Catalano, the better choice

5

Cataglaze®+ Silver Titanium, protezione antibatterica 99,99% 99.99% antibacterial protection

È un potenziamento dello smalto Cataglaze che, oltre a ridurre il deposito di calcare facilitando la pulizia dei sanitari ceramici, svolge una potente azione antimicrobica in grado di contrastare germi e batteri.

It is an improvement of Cataglaze glazing system; besides being more resistant to limescale and therefore easier to clean, it has a powerful antimicrobial action able to kill germs and bacteria.

6

Colori | Colors

Smalti colorati, satinati, inalterabili e resistenti agli attacchi acidi, esclusivi dei laboratori Catalano.

Our coloured glazes, satin and unalterable, tested for acids and alkali resistance, are developed in-house and thus unique.

7

Gold & Silver

Preziose finiture metallizzate in argento puro e oro 18k antigraffio ed inalterabili nel tempo.

Precious metal finishes in pure silver and 18k gold, are scratch-resistant and unalterable over time.

8

Newflush®

Scarico a vortice per WC senza brida, silenzioso, migliora l'igiene e ottimizza la pulizia. **Brevetto Catalano.**

Vortex flushing system for WCs without rim, with minimal noise, it improves hygiene and facilitates more thorough cleaning. **Catalano patent.**
