# stage

Stage is a modern take on vintage bathroom units. It is neo-classical in style, with a mix of materials that include oak and Krion. One of its star features is the Krion countertop, with a skirt with tubular reliefs. It stands on rounded feet typical of 1900s furniture, with two inner drawers to keep the bathroom neat and tidy.

El mueble de baño Stage es un guiño al pasado pero con un diseño para hoy. Se trata de un mueble de baño neoclásico, en el que se han unido diferentes materiales como el roble y el Krion. Entre su características más destacables está su encimera en Krion con un diseño en su faldón con relieve y patas redondeadas que nos recuerdan a esos muebles de 1900. Además este mueble de baño también cuenta con dos cajones interiores para mantener nuestro baño mucho más organizado.

Le meuble de salle de bains Stage est un clin d'œil au passé, mais avec un design d'aujourd'hui. Il s'agit d'un meuble de salle de bains néoclassique, où l'on a réuni différents matériaux comme le chêne et le Krion. Parmi ses caractéristiques les plus remarquables, souligner son plan de travail en Krion avec un pan arborant un relief et des pieds arrondis qui rappellent les meubles des années 1900. Par ailleurs, ce meuble de salle de bains dispose de deux tiroirs intérieurs pour garder notre salle de bains bien rangée.

# duna

A basin unit made up of an aluminium sheet, curved to form raised sides, into which a granite washbasin has been fitted. This has been shaped using "folding" technology to fit neatly into the curved sheet of metal and ensure a continuous veined granite pattern. Aluminium, lacquered with black epoxy paint, and Portobello granite were chosen as the finishes for the unit.

Accompanying it is a wall-hung unit with a drawer, covered in a rustic-look natural oak veneer.

The series is rounded off with a matching round mirror with an aluminium frame, featuring a shelf that rests inside the frame and integrated lighting.

Conjunto compuesto por una chapa de aluminio en forma de canal, en la que se acopla un lavabo de granito natural fabricado con tecnología "Folding" para poder ser ajustado al hueco interior de la chapa curvada y dar continuidad a la veta del material.

Los acabados seleccionados para este conjunto son aluminio con un lacado en pintura epoxi superficial negro y granito Portobello.

El módulo auxiliar que complementa esta serie consiste en un módulo suspendido con un cajón, fabricado en chapa de roble natural rusticificado.

Esta serie queda completada con un espejo en aluminio circular a juego con el resto del mueble, el cual incluye una balda apoyada en el interior del anillo e iluminación integrada en el espejo.

Ensemble composé par une tôle en aluminium en forme de canal, sur laquelle s'encastre un lavabo en granit naturel fabriqué à l'aide de la technologie « Folding » afin de pouvoir être ajusté au creux intérieur de la tôle courbée et de donner une continuité à la veinure du matériau.

Les finitions sélectionnées pour cet ensemble sont en aluminium avec une finition laquée en peinture époxy superficielle noire et granit Portobello.

Le module auxiliaire qui complète cette série consiste en un module suspendu avec un tiroir, fabriqué en placage de chêne naturel effet rustique.

Cette série est complétée par un miroir circulaire en aluminium assorti au reste du meuble, qui inclut une étagère appuyée à l'intérieur de l'anneau et un éclairage décoratif intégré dans le miroir.

A washbasin unit with a carved oak veneer finish to give it a rustic appearance.

This is a compact unit, featuring two drawers with a Metal laminate lining and Nadir texture. Visually it stands out for two reasons: firstly, for its slightly sunken fronts, with a linear metal handle that juts out so that it is flush with the sides and countertop; and, secondly, because its side panels and wood veneer base are assembled to each other and to the countertop with mitre joints to create a solid ensemble.

The stone countertop can come with an undermount washbasin (the Sotto Box model) or one made of stone.

Accompanying it is a mirror with a frame in a glossy chrome finish.

Mueble de baño fabricado en chapa de roble natural labrada, aportando al mueble un efecto rústico. Se trata de un mueble compacto con dos cajones y acabado interior en laminado Metal con textura Nadir. El mueble se caracteriza a primera vista por dos aspectos. Por un lado, por tener los frentes ligeramente hundidos y como tirador, una línea horizontal metálica que sobresale de los frentes para enrasarse con los laterales y la encimera. Por otro lado, los paneles laterales y la base de chapa de madera se unen mediante ingletes entre ellos y a la encimera, generando un único bloque continuo. La encimera es de piedra natural y puede incorporar un lavabo bajo-encimera cerámico o fabricado en la misma piedra natural. La composición está acompañada con espejo cuyo marco está acabado en cromado brillo.

Meuble de salle de bains fabriqué en plaqué chêne naturel travaillé, ce qui donne au meuble une touche rustique. Il s'agit d'un meuble compact avec deux tiroirs et une finition intérieure en mélaminé Metal avec une texture Nadir. Le meuble se caractérise à première vue par deux aspects. D'une part, il présente des façades légèrement en retrait et comme poignée, une ligne horizontale métallique qui ressort et arrive au niveau des parties latérales et du plan. D'autre part, les panneaux latéraux et la base de placage en bois sont joints entre eux et à la tablette au moyen d'onglets, créant un unique bloc continu. Le plan de vasque est en pierre naturelle et peut incorporer une vasque sous plan, soit en céramique (Sotto Box) soit fabriqué avec la même pierre naturelle. La composition est accompagnée d'un miroir dont le cadre présente une finition en chromé brillant.

## icon

Icon is a bathroom unit with a natural oak wood strip veneer, specially treated to bring out the depth of the wood grain.

The drawer features an integrated J-shaped pull machined in the front, and the sides come in an exclusive coloured finish, specially created for Gamadecor. The accessories and mirror are made of aluminium and come in the same finish as the drawer sides.

El mueble Icon está fabricado con chapa natural alistonada de roble, la cual tiene un proceso adicional de labrado que marca con mayor intensidad la profundidad de la veta.

El cajón no tiene ningún tirador físico, se trata de un tirador integrado que va mecanizado en el frente con perfil en J.

Los laterales del cajón están acabados con un color exclusivo para Gamadecor.

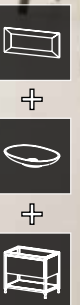

Los accesorios y el espejo están fabricados en aluminio y en el mismo acabado que el lateral del cajón.

Le meuble Icon est fabriqué avec un placage en bois de chêne naturel présenté en lames, qui est soumis à un traitement supplémentaire de travail superficiel qui laisse apparaître la profondeur de la veinure avec une plus grande intensité.

Le tiroir ne présente aucune poignée physique, il s'agit d'une poignée intégrée usinée sur la façade avec un profil en J.

Les parties latérales du tiroir présentent une finition avec une couleur exclusive pour Gamadecor.

Les accessoires et le miroir sont fabriqués en aluminium et avec la même finition que la partie latérale du tiroir.

Leaf bath furniture. The naturalness and simplicity are almost extreme with its mitred edges offering lightness and levity to the design. We must emphasize the dark side strip coming from the higher plane and going down through the vanity front composing the handle. The pure and minimalist aesthetics of the vanity set continues in the worktop with an integrated basin in its surface. It is possible due to the versatility, adaptability and capacity of the krion.

The hardware used in the Leaf vanity drawers has a unique finish exclusively designed for Gamadecor. Its global opening system allows opening its broad drawers in a homogeneous way by pulling only one of the sides.

Mueble de baño Leaf. La naturalidad y simplicidad rozan lo extremo, a través de sus cantos en inglete le otorga ligereza y levedad al diseño. Destaca de él la franja oscura lateral que parte del plano superior y baja por el frente del mueble formando el tirador. La estética pura y minimalista del conjunto del mueble de baño continúa en la encimera con lavabo integrado en la superficie. Esto es posible gracias a la versatilidad, adaptabilidad y capacidad del Krion.

El herraje empleado en los cajones del mueble de baño Leaf posee un acabado exclusivo y único diseñado para Gamadecor. Su sistema de apertura global permite abrir sus amplios cajones de forma homogénea, tirando únicamente de uno de los laterales.

Meuble de bain LEAF. Un naturel et une simplicité qui frôle l'extrême. Ses coins en biseaux lui octroie un design souple et léger. On le distingue par son liseré latéral de couleur sombre, qui part du haut du meuble en redescendant par la face avant pour former la poignée. L'esthétique pure et minimaliste de cet ensemble de bains continue avec ses lavabos parfaitement intégrés sur le plan de vasque. Cette ligne épurée est possible grâce à la malléabilité et à la capacité d'adaptation du krion.

Les ferrures employés dans le meuble de bain LEAF possèdent une finition unique dessinée et créée pour Gama Décor. Ce système permet une ouverture uniforme de ses grands tiroirs, en utilisant uniquement une poignée latérale.

Modular bathroom cabinet with wide variety of options both in modules and in finishes. The design of the set is characterized by its horizontal handle that is integrated throughout all the modules, sides, and tops with recessing, the final thickness of which is 8 mm, which gives the DESS series a lightweight appearance. Similarly, the DESS washbasin with Gelcoat finish, also has this thickness reduction at the edges in order to follow this lightweight line. The top modules, mirrors, and shelves, are made from aluminum frames with stainless steel or black 100% Metal finish, in the inside of which a back panel, a mirror, or a veneer, lacquer, or mirror door can be installed.

Mueble de baño modular con gran variedad de opciones tanto en modulación como en acabados. El diseño del conjunto se caracteriza por su tirador horizontal integrado a lo largo de toda la modulación y los laterales y tapas con galce, cuyo espesor final es de 8 mm. que le otorga una presencia más ligera y liviana a la serie DESS.

Del mismo modo, el lavabo DESS acabado en Gelcoat, también tiene esta reducción de espesor en los bordes para seguir esta línea liviana.

Los módulos altos, espejos y estanterías están hechas a partir de marcos de aluminio en acabado acero inox. o negro cien Metal, en cuyo interior puede ir un panel trasero, un espejo o una puerta en chapa, laca o espejo.

Meuble de salle de bains modulaire avec de nombreuses options de modules et de finitions. Le design de cet ensemble se caractérise par l'existence d'une poignée horizontale intégrée sur tout le long des modules ainsi que les côtés et les plans de vasque avec feuillures, dont l'épaisseur finale est de 8 mm, ce qui permet à la série DESS d'être plus légère visuellement. La vasque DESS finition Gelcoat diminue également son épaisseur au niveau des arêtes afin de rester dans cette même logique de légèreté.

Les modules supérieurs, les miroirs et les étagères se fabriquent à partir d'un cadre en aluminium à finition inox ou noir 100 Metal, à l'intérieur duquel peut aller un panneau de fond ou un miroir ou peut être équipée d'une porte en bois plaqué, laqué ou d'un miroir.

Available in a Nogal Moon or Nogal Frost finish, this bathroom unit stands out for the design of its continuous draw pull, starting in the front of the unit and ending midway along the side. Another fascinating feature is its use of intarsia, with contrasting horizontal and vertical wood grain patterns, lending a revamped vintage air. Corner's interiors are equally worthy of mention, with a mitre-edged drawer and two inner drawers in a finish that contrasts with the exterior, affording ample storage space.

Mueble de baño fabricado en acabado Nogal Moon o Nogal Frost. Destaca su frente en esquina con tirador enmarcado, un tirador continuo que va desde el frontal del mueble a la mitad del costado. En este mueble también destaca su taracea, gracias a su juego de mallas horizontales y verticales, consiguiendo ese aire de mueble antiguo traído al ahora. En este mueble también es muy importante su interior, en el que lo primero que destacamos es su cajón en inglete, y sus 2 cajones interiores en un acabado que contrastan con el exterior, los cuales nos dan un espacio perfecto para el almacenaje.

Meuble de salle de bains fabriqué en finition Nogal Moon ou Nogal Frost. Souligner sa façade faisant angle avec poignée encadrée, une poignée continue qui part de la façade du meuble et s'étend jusqu'à mi côté. Ce meuble se détache également par son intarsia, un jeu de mailles horizontales et verticales, avec un petit air de meuble ancien remis au goût du jour. Ce meuble se distingue en outre par son intérieur, qui présente un tiroir en onglet et 2 tiroirs intérieurs dans une finition qui contraste avec l'extérieur, offrant un espace parfait pour le rangement.

### Scope of the Guarantee:

This Manufacturer's Guarantee covers any claims for manufacturing defects affecting Gama-Decor brand furniture that are not visible during installation and which may appear with use or over time, for a period of THREE YEARS from the date of delivery to the first user, except in the case of consumable elements such as light bulbs, pistons, etc., for which Gama-Decor provides a guarantee of ONE YEAR. In the case of bathroom furnitures supplied for developments and building projects, the guarantee period will be calculated from the date on which the furnitures are supplied/certified.

This Guarantee does not cover the normal changes that affect wood, like any natural product, with the passing of time, as well as differences in its tone or grain.

During the period covered by this Guarantee, Gama-Decor reserves the right to modify the technical and design specifications of its products without prior notice. This Guarantee replaces any previous versions of the same.

### Guarantee Conditions:

-That the Gama-Decor bathroom furniture has been acquired from a certified distributor.

-That it has not undergone any alterations since it left the factory, and that all of its component features are respected.

-That any claims are not a result of causes beyond the control of Gama-Decor, such as leaks, overly high temperatures, abnormal humidity conditions, incorrect assembly, impacts, abusive or unsuitable use, unsuitable cleaning products, changes in tone due to exposure to sunlight, etc.

-That all recommendations regarding use and maintenance have been respected.

-That the products have not been use, nor displayed for an undefined period in any showrooms, trade fairs or exhibitions, in which case the guarantee period for these articles is 30 DAYS.

### Presentation of Claims:

Any fault identified in our products must be notified to the Certified Distributor who supplied or sold our products, or to a certified technical service provider. Any such notification must be made within a reasonable period of time from discovering the fault, in order to avoid any worsening of the situation. In any event, the execution and effective coverage of the guarantee offered for our products will be subject to an inspection carried out by the certified distributor who sold or supplied the products, or the certified provider of the supposedly faulty products.

In the event of Gama-Decor recognising that the affected element is faulty and within the limits of the Guarantee, it will propose either repairing or replacing the same, as applicable.

In these cases, Gama-Decor will provide the Distributor or technical service provider with:

-The materials that have had the original faults or defects repaired.

-New materials with identical characteristics, if Gama-Decor has opted to replace the faulty material, or if the repair is not satisfactory.

-In situations when the material in question is no longer available, it cannot be provided by our supplier, or the supplier has changed its activity, etc, Gama-Decor will offer an alternative solution.

NOTE: The Guarantee document will be applicable without prejudice to the rights of the consumer established by law in each country, as well as the Europe Community regulations.
